

The Consultant/Vendor Council (CVC) Chair strives to involve product vendors and transportation engineering and planning consultants more often in NCSITE activities. The CVC increases the exposure of consultants and vendors to the membership and provides opportunities for them to sponsor events, thus promoting activities that are mutually beneficial to the membership and the sponsoring companies. The CVC also works to provide training opportunities while promoting vendors and their products to the membership. The CVC is the driving force behind scholarship fundraising. The goals for the year include the following:

- Assist with local meetings throughout the year
- Provide sponsorships for the Mid-year Meeting and promote scholarship fundraising activities (includes golf tournament)
- Provide sponsorships for the Annual Meeting (includes vendor expo)
- Increase vendor involvement and visibility

David Jones, P.E., 2006-2007 CVC Chair
