10:30 am – 11:30 am Privatized Transportation – From Policy to Projects
Vic Poteat, PE, PBS&J

What is the buzz about? Those responsible for guiding or implementing transportation infrastructure planning, design, construction, operation, and maintenance activities are considering privatized transportation. This session will address the following questions related to privatization of transportation in the US:

- *What is privatized transportation?*
- *Why are we seeing privatized transportation?*
- *Who are the players in the private market?*
- *Where are privatized projects taking place?*
